PROFESSIONAL SUMMARY

Dynamic and technically skilled IT professional with over 5 years of experience in technical support (L1 & L2) and network engineering. Proven track record in resolving complex issues, maintaining network infrastructure, and delivering exceptional end-user support. Currently working as a Networking Engineer with L2 support responsibilities, managing and troubleshooting network systems while supporting internal teams and clients. Strong understanding of networking protocols, hardware, and customer service principles

WORK EXPERIENCE

Senior Systemssupport engineer I 2024-2025

Weliv techno pvt ltd - Bangalore

- Manage day-to-day networking operations including configuring and troubleshooting routers, switches, firewalls, and VPNs.
- Provide L2 support to escalated technical issues related to network connectivity, system performance, and hardware failures.
- Monitor network performance and security using tools such as SolarWinds, PRTG, and Wireshark.
- Collaborate with L1 support team to ensure ticket escalations are addressed within SLA timelines.
- Maintain and update network documentation, IP schema, and system architecture diagrams.
- Assist in network upgrades, patch management, and firewall rule implementation.

Systems support engineer 2022-2024

Concord Shipping LLC Dubai - UAE

- Resolved second-level technical support tickets involving system errors, application issues, and hardware malfunctions.
- Performed root cause analysis for recurring incidents and provided long-term solutions.
- Assisted in server maintenance tasks, including updates, backups, and patching.
- Maintained strong communication with customers, ensuring satisfaction and timely updates.

Systems support engineer 2019-2022

Meridian Express Logistics Dubai - UAE

- Provided frontline support for IT issues via phone, email, and ticketing systems.
- Troubleshoot user issues related to desktop, printers, email, and connectivity.
- Logged incidents, escalated unresolved issues to L2 support, and followed up with end-users.
- Delivered basic IT training to new users and supported software installations.
